ARIZONA FIRE MAP
Data Collection Template

This template is designed to allow entry of Arizona fuel treatment data in a standardized format for use in the Arizona FIRE MAP Project.

The primary data components are:

ORGANIZATION DATA
This is information about the primary organization responsible for the fuel treatment or project.

CONTACT DATA
This is information about the primary contact for this organization's fuel treatment or project data.
It may or may not be someone located at, or employed by, the primary organization above.

PROJECTS
This is general information about one project. It will be related to one or more Fuel Treatments.

TREATMENTS
This is specific information about one treatment. It must be related to one Project.

POLYGONS
If Polygons (shapefiles or other) are available for treatments, they should include these attributes.

- Organization Data
- Contact Data

- Use **TAB 1 - Organization - Contact**
　　　to enter field data

- Projects
- Treatments

- Use **TAB 2a - Organization - Contact - Form**
　　　to enter Individual Project or Treatment data in form layout
or

- Use **TAB 2b - Organization - Contact - List**
　　　to enter Multiple Project or Treatment data in list format
(Note: Use of this format allows organizations having multiple treatements to create, maintain, and submit a complete list of projects and treatments. Save the file and resubmit the entire list when updates are made.)
or

- If a Shapefile or Geodatabase is being transmitted, the Project and Treatment attributes listed in 2a or 2b may be included as a part of that file.

- Polygons

- Polygon data will need to be transmitted separately from this spreadsheet in Shapefile, Geodatabase, or other spatial format.
- Polygon attributes (other than the actual polygons) may be attached to the Shapefile or entered in this spreadsheet on Tab 2a or 2b
